

From The Director's Desk -Hemang Doctor

It has been 14 years since my association began with OEC. Have managed and spearheaded almost all departments from Ops, finance, Sales etc.

In last couple of years we have moved to a next level where the processes are getting more evolved, staff is getting trained on various skills, the infra has moved to a new benchmark. Needless to mention about our new Head Office. HO is a state of art office with all amenities to create a better working environment for our staff which results in better overall performance.

We are in the process of getting ISO (9001:2015) certification which will not only bring more credibility to the whole system but also help us as an organization, to focus and improve our processes.

Further for us to grow we need to think differently, Re-Engineering our process and deliver at lighting pace.

Along with our capable human capital i.e., **you all**, we are poised to grow by leaps and bounds. Am sure in next 2-3 years we will be the market leader and will create a position that will make our competitors envy of us.

What we need to do is to keep focusing is on doing better than what we did yesterday, leave no stone unturned to make our customers happy and am sure success will follow us.

Best Wishes to all of you.
